

I Know !

The above picture is a button that **AT&T** gave their sales staff in 1996. Thirty years after the introduction of the first Toll – Free Area Code, they introduced the second Toll-Free Area Code. They chose **888** to supplement **800**, the first area code. The sales staff knew the meaning of **888** as it relates to Toll-Free telephone service. So they would wear this button

as a reminder that they will have to persuade customers to accept this new number. The sales person could confidently say to himself, “ **I Know !** that **888** is a Toll-Free Area Code.”

I found one of these buttons in 1996. The button had a greater significance to me. In 1988, I proved that **888** had reference to **JESUS**. The statement that I make when I wear this button is not about telephone service. My statement is " **I Know JESUS !** "

What do I know about **JESUS**. I know that I have been on a mission since 1988 to uplift the name of **JESUS**. In 1994 my mission was clear. When I was directed to go to Saint Mary's Hospital on the **8th** day of August the die was casted.

Eight days later I was discharged from Down State Medical Center in good health. **8** th day, **8**th month, **8** days . Nineteen years later in the latter part of October 2007, I was made aware that I had a special cell phone number. This was my FATHER'S way of saying I approve of your work, continue. You can read the story under " **The Right Track** " on this web site.

I Know JESUS !
